

EASY ADJUSTMENTS | VARIABLE CADENCE | STANCE FLEXION

Step victoriously. The Victor knee is a single axis, pneumatic knee joint featuring a friction brake to control stance phase. This knee is an ideal solution for low to moderate activity users, as it can adjust to accommodate both slow and fast paced walking. It also works well for patients looking to increase their activity level after rehabilitation. The Victor is a safe, economical option that was created to instill confidence in patients.

VICTOR PART NUMBER

VPKA 200
